Section Organization

Page split up into 5 separate sections with separate cards.

Goal→ Group related elements, less back-and-forth scrolling, simpler searching.

Content Columns

Content sections are split on columns with a 2:1 ratio, following a grid split into thirds, for wider screens.

Goal→ Reduce visual clutter, better organize disparate information, consistent left-to-right visual scanning, easier screen reader usage.

Subtitles

Subtitles within sections to further group content → more organization + accessibility

Contrast

Sections placed upon white backgrounds with dark UI and text to maximize contrast, with minimal color usage for accents.

Goal→ Less visual clutter, focus on hierarchy, better contrast

'Header' section contains brief information overview, larger photo to show visual information of park → more visually engaging, hierarchy of information.

In-page navbar highlights the 4 main content sections and their order → faster navigation for frequent users, conveys page order

Section Titles

Further sections postmarked with bolded titles → organization + accessibility
